

GAR COMMERCIAL FEMALES

The 358 commercial females will sell in 39 groups. 321 of the females are AI bred to GAR Home Town, GAR Dual Force, GAR Transcendent, GAR Incentive, GAR Sunbeam, GAR Home Free, GAR Grass Roots, and GAR Home Team. The bull bred heifers are bred to The females have been genomic tested using Method Genetics Choice. Because the MG database is derived from information supplied primarily by GAR seedstock and commercial herds, the MG genetic breeding values and indexes serve as a BENCHMARK for GAR customers. Simply put, the Method Genetics evaluation benchmarks our cattle and the cattle of our customers who participate in the MG program against one another. This is an elite population of Angus cattle selected for reproductive

efficiency, calving ease, docility, post weaning growth, feedlot performance and carcass value, NOT THE AVERAGE ANGUS ANIMAL. Groups 29-40 are from the Switch House Ranch in Wichita Falls, Texas, and the Merrill Ranch, Wilmore, Kansas. These commercial ranching operations have used some of the very best GAR genetics for decades. The steer mates to these heifers rank in the top 25% of all the cattle sold through U.S. Premium Beef.

COMMERCIAL FEMALES SELL AS A GROUP WITH THE OPTION TO TAKE MULTIPLE GROUPS. FREE DELIVERY.
